Summary

I am currently pursuing a degree in Computer Science at the College of Engineering and Computer Science, with a concurrent double minor in Business and German. I characterize myself as an adventurous and highly determined individual, driven by a strong commitment to achieving my goals.

One of my most notable accomplishments to date has been my effective time management, which enabled me to excel in my academic pursuits while also participating in the Costa Rican Soccer U-20 National Team and competing professionally in soccer. Following years of diligent effort throughout high school and my soccer career, I successfully gained admission to the University of Central Florida as a Student Athlete. Subsequently, after a year, I transitioned to Virginia Tech to further advance my student-athlete journey.
